

# Boom Reports

- Guessing (rapid response and mixed performance)
- In the zone of proximal development (mix of response times, 80-95% correct)
- Mastery of concepts (rapid response and consistent correct performance)
- Solidified mastery (mastery pattern that continues over extending intervals of time)
- Poor fit to readiness (slow response times and majority incorrect responses)
- Knowledge gaps and misunderstandings (consistent wrong answers on a specific knowledge element)
